WINDOW SYSTEMS

INTRODUCTION BRAND.

Zhijing | Enjoy 26 Life

Brand Introduction

20+

Years of know-how

20+

National patents

15000+

Sqm production base

Zhijing Doors and Windows focuses on system windows, sunrooms, pergolas, sliding systems and related aluminum solutions. The company integrates research, design, manufacturing and sales service for residential, villa, hotel and commercial projects.

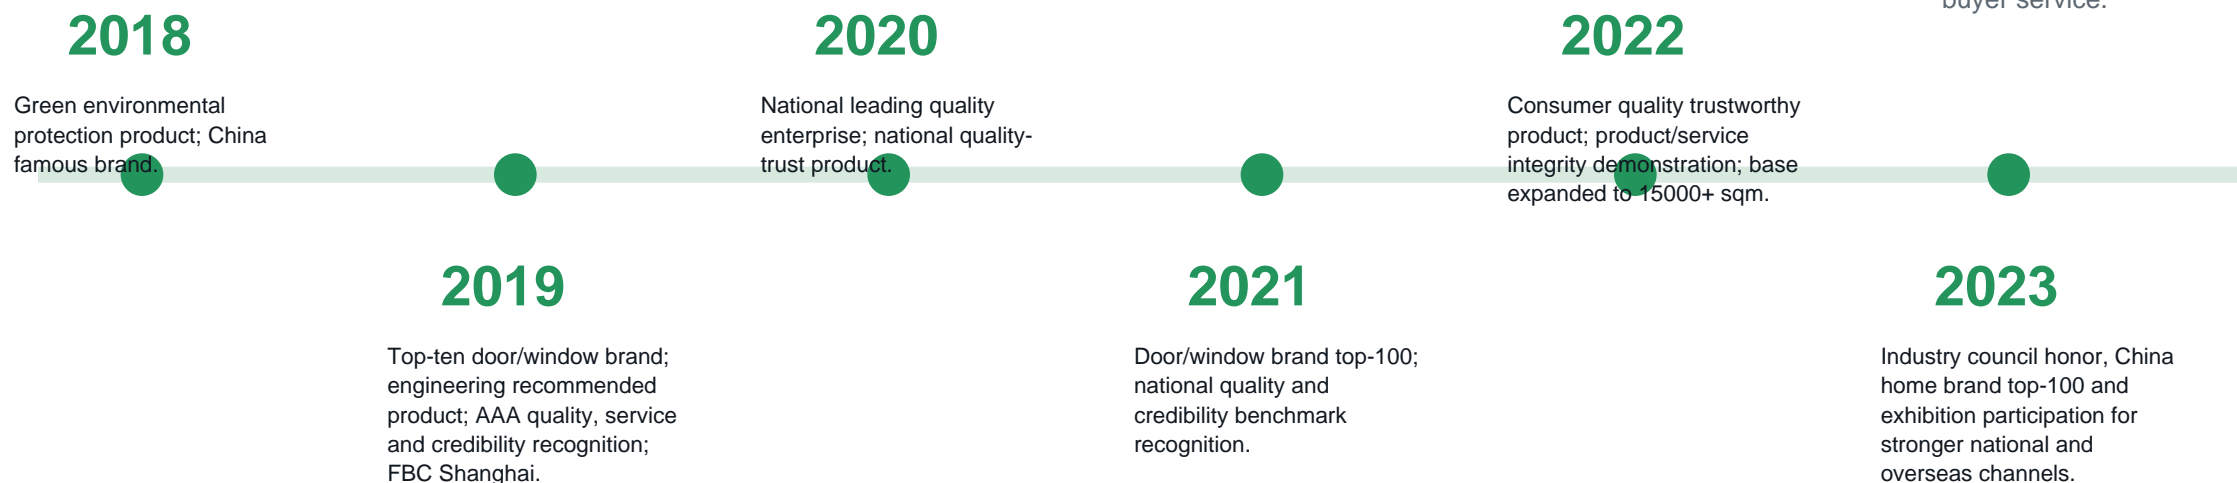

The product portfolio includes Zhijing 80, Zhijing 92, Jingyi 888, Jingyi 1058, Jingyi 1128, K116 outward-opening system window, 120 and 140 sunroom systems, 120 lifting window, 126 sliding window, 128 sliding door and 192 sliding door.

For overseas distributors, contractors and project buyers, Zhijing provides factory-direct communication, customized sizing, glass and hardware configuration, export packing support and project quotation follow-up.

DEVELOPMENT COURSE

Milestones translated from the Zhijing product handbook.

HOW TO CHOOSE WINDOWS?

Quick product index for project buyers and distributors.

Category	Series	Selection Focus
System Windows	Zhijing 80 / 92, Jingyi 888 / 1058 / 1128, K116	Sealing, thermal insulation, wind resistance and acoustic comfort.
Sunroom Systems	120# all-aluminum sunroom, 140# thermal-break sunroom	Terrace, balcony, garden room and villa extension solutions.
Large Opening	120 lifting window, 126 sliding window, 128 / 192 sliding door	Panoramic openings, hotel suites and premium living rooms.
Project Support	MOQ 10 sqm, fastest 15 days, normal upper range 25 days	Quotation by dimensions, quantity, destination and configuration.

Buyer Reminder

Confirm drawings, glass, color, hardware, opening direction, drainage and packing details before production.

Zhijing 80 System Window

Thermal-break system window for high-seal residential applications.

Product Features

- 6063-T5 aluminum profile, 1.8 mm wall thickness.
- PA66 multi-cavity thermal insulation strip.
- Flush sash and frame appearance.
- 5+12A+5+12A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Concealed drainage for clean facade detailing.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 7
Thermal Insulation	Grade 7
Sound Insulation	Grade 6

Design Note

Pinned glue-injection corner reinforcement improves overall strength and thermal stability.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

Zhijing 80 System Window

Application Reference

Thermal-break system window for high-seal residential applications.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

Zhijing 92 System Window

Enhanced sealing system for storm, rain and comfort requirements.

Product Features

- 6063-T5 aluminum profile, 1.8 mm wall thickness.
- PA66 multi-cavity thermal insulation strip.
- Flush sash and frame appearance.
- 5+12A+5+12A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Concealed drainage for stable water management.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 6
Thermal Insulation	Grade 6
Sound Insulation	Grade 5

Design Note

Suitable for dry-and-wet separation and heavy-rain design scenarios.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

Zhijing 92 System Window

Application Reference

Enhanced sealing system for storm, rain and comfort requirements.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

Jingyi 888 System Window

Premium profile system with stronger acoustic and wind-load performance.

Product Features

- 6063-T5 aluminum profile, 2.0 mm wall thickness.
- Shanghai Youcai PA66 thermal insulation strip.
- Flush sash and frame appearance.
- 5+12A+5+12A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Direct drainage for reliable water discharge.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 8
Thermal Insulation	Grade 6
Sound Insulation	Grade 8

Design Note

A strong choice where acoustic control and wind pressure are major buyer concerns.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

Jingyi 888 System Window

Application Reference

Premium profile system with stronger acoustic and wind-load performance.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

Jingyi 1058 System Window

Large-section insulated system for villa and project supply.

Product Features

- 6063-T5 aluminum profile, 1.8 mm wall thickness.
- National-standard PA66 thermal insulation strip.
- Flush sash and frame appearance.
- 5+14A+5+14A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Concealed floor drainage structure.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 8
Thermal Insulation	Grade 6
Sound Insulation	Grade 4

Design Note

Additional dust strip support helps maintain cleaner long-term operation.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

Jingyi 1058 System Window

Application Reference

Large-section insulated system for villa and project supply.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

Jingyi 1128 System Window

Robust insulated window for demanding residential and commercial openings.

Product Features

- 6063-T5 aluminum profile, 2.0 mm wall thickness.
- Shanghai Youcai PA66 thermal insulation strip.
- Flush sash and frame appearance.
- 5+12A+5+12A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Direct floor drainage for stable discharge.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 8
Thermal Insulation	Grade 6
Sound Insulation	Grade 4

Design Note

Designed for buyers who need heavier profiles and clear quotation configuration.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

Jingyi 1128 System Window

Application Reference

Robust insulated window for demanding residential and commercial openings.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

K116 Outward-Opening System Window

Outward-opening window with refined bevel detailing and clean daylight.

Product Features

- 6063-T5 aluminum profile, 1.8 mm wall thickness.
- National-standard PA66 thermal insulation strip.
- Flush sash and frame appearance.
- 5+14A+5+14A+5 insulating glass.
- EPDM sealing strip and German Noto hardware.
- Concealed drainage system.

Product Performance

Performance Item	Grade
Air Tightness	Grade 8
Water Tightness	Grade 6
Wind Resistance	Grade 8
Thermal Insulation	Grade 6
Sound Insulation	Grade 4

Design Note

Beveled glazing beads improve appearance while keeping a lighter visual profile.

Configuration can be adjusted by project drawings, local climate, wind pressure and buyer budget.

ZHIJING

WINDOW SYSTEMS

K116 Outward-Opening System Window

Application Reference

Outward-opening window with refined bevel detailing and clean daylight.

- Residential, villa, hotel and project openings.
- Supports custom size, glass, color and hardware.
- Prepared for distributors, contractors and OEM buyers.

SYSTEM PERFORMANCE INDEX

Core buyer checkpoints before quotation and production.

Water Tightness

Drainage path, EPDM sealing, glass bead design and installation details.

Air Tightness

Multi-layer sealing, hardware lock points and profile precision.

Thermal Insulation

PA66 thermal-break strip, insulating glass and edge sealing.

Sound Insulation

Glass configuration, cavity width, sealing continuity and frame rigidity.

Wind Resistance

Profile wall thickness, reinforcement and project wind pressure requirement.

Use performance grades as reference. Final testing, documents and compliance should be confirmed for each project and target market.

120# All-Aluminum Sunroom Series

All-aluminum structural sunroom system for terraces, balconies and villas.

Item	Specification
Outer section	100 x 120 mm
Roof options	Decra roof or laminated insulating glass roof
Main beam	3.0 mm multi-cavity 100 x 60 section
Secondary beam	2.0 mm, 75 x 60 section
Rear beam	2.2 mm profile, 2.8 mm load-bearing section
Front beam	2.2 mm profile, 3.0 mm load-bearing section
Corner code	3 mm thick, about 1.5T load reference
Gutter	2.0 mm multi-layer gutter

140# Thermal-Break Sunroom Series

Thermal-break sunroom system for higher comfort and stronger structural requirements.

Item	Specification
Outer section	140 x 120 mm
Roof options	Decra roof or laminated insulating glass roof
Main beam	4.0 mm multi-cavity 140 x 77 section
Secondary beam	2.5 mm, 100 x 65 section
Rear beam	3.0 mm profile, 5.0 mm load-bearing section
Front beam	2.5 mm profile, 5.0 mm load-bearing section
Corner code	8 mm thick, about 2.0T load reference
Gutter	2.0 mm multi-layer gutter

120 Lifting Window Series

Lift-up opening system for large glass views and high ventilation.

- Large glass daylighting with clean horizontal opening effect.
- Suitable for panoramic rooms, balconies and premium residential spaces.
- Opening size and glass configuration should be confirmed by drawing.

Project buyers can confirm profile, glass, rail, lock, screen and packing details before production.

126 Sliding Window Series

Slim sliding window system for quiet, relaxed and wide-view spaces.

- Balanced sliding experience with a lighter visual profile.
- Suitable for hotels, apartments and leisure living areas.
- Can be configured with custom glass, screen and color options.

Project buyers can confirm profile, glass, rail, lock, screen and packing details before production.

ZHIJING

WINDOW SYSTEMS

128 Sliding Door Series

Residential and patio sliding door for everyday large openings.

- Good for balcony, terrace, garden and villa transitions.
- Creates wider daylight and a more open indoor-outdoor experience.
- Supports project-specific rail, lock and panel configuration.

Project buyers can confirm profile, glass, rail, lock, screen and packing details before production.

ZHIJING

WINDOW SYSTEMS

192 Sliding Door Series

Large-format sliding door for modern decoration and bright interiors.

- Designed for large openings and stronger architectural presence.
- Helps introduce daylight and make interior spaces feel larger.
- Recommended for premium villas, hotels and high-end commercial spaces.

Project buyers can confirm profile, glass, rail, lock, screen and packing details before production.

A modern, multi-story building with a large glass facade, reflecting the sky and surrounding environment. The building has a clean, minimalist design with white panels and dark window frames. The text is overlaid on the center of the image.
